### News Release

### Storytime Online ~ Watch It Live!

**October, 2014 ~ Tuesdays, 4:30pm**

For the first time ever, the Kern County Library is offering “Storytime Online.” This special storytime transcends boundaries, because it can be watched **LIVE** from anyplace in Kern County or the world via the Kern County Library Youtube Page or Google+ Hangouts on Air. Just like traditional storytimes featured across Kern County Library branches, it will include several Halloween-themed stories and songs during October. This online version of storytime will offer the same benefits as traditional storytime, including the development of a child’s imagination, the discovery of new ideas, the nurturing of listening skills, vocabulary development, language and literacy skills development, reinforcement of basic concepts, and most importantly, storytimes help children develop a love of reading and become successful lifelong learners. Storytime Online in October can be accessed at <http://goo.gl/7KPJRW>.

#### Storytime Online Themes

Liz Stewart and Susan Palm of the Beale Memorial Library will be hosting Storytime Online and look forward to singing, reading, and having fun together.
