News Release

DIY at the Kern County Library During Teen Tech Week 2014

Sunday March 9 – Saturday March 15, 2014

Local teens will be tuning in at the Kern County Library as it celebrates Teen Tech Week, which showcases the resources and services available to teens and their families. These local teens will be joining thousands of other libraries and schools across the country who are celebrating this year's theme, "DIY at Your Library®."

Teen Tech Week, held annually on the second week of March, is a national initiative of the Young Adult Library Services Association (YALSA) aimed at teens, their parents, educators, and other concerned adults. Teen Tech Week encourages teens to take advantage of the technology at libraries for education and recreation, and to recognize that librarians are qualified, trusted professionals who can help them achieve greater digital literacy.
